REDSTONE BROTHERS'
ECLIPSE
MORTICING MACHINE!!

This machine is, in every particular, perfectly adjustable to any size mortice, will cut and clean the mortice by a single operation, self-feeding to any depth, length, or width required for ordinary purposes.

The time required to cut and clean mortices by hand is from three to ten seconds, a long mortice being cut in the same time as a short one.

When the machine is adjusted, the operation is simply turning by either crank or pulley. Will cut a great variety of compound mortices, giving any desired curve or angle to the mortice.

The principle of operating this machine is entirely new. All the motion of the tools are effected by direct action from the power wheel without the use of springs or gearing, and is a complete machine for all kinds of morticing.

By a simple adjustment the machine will make any required mortice for letting castings into bed posts to receive the rails, also forming a deep mortice in the centre at the same time, to receive the pins in the ends of the rails.

CHEAP & NEW SUGAR MILLS, FEED CUTTERS, AND SAW MILLS.

New Sugar Mills to Suit the Times!!

In view of our present difficulties, it will be found necessary for a greater amount of Sorghum cane to be raised to supply the wants of the people in this section.

The attention of Farmers is therefore called to a Sugar Mill, manufactured only by **Redstone, Brother & Co.,** to sell at **15 dollars,** and may be operated by hand or horse power.

Those desiring one of these Mills will please send in their orders, that they may be supplied promptly. Also, a

STRAW AND FEED CUTTER,

Entirely different from any heretofore made, cheaper and more durable than any self-feeding Straw and Feed Cutter ever manufactured. We are also manufacturing

PORTABLE SAW MILLS,

At from **$20** to **$50,** with which farmers can manufacture their own lumber. The same Machine being used for cross-cutting and ripping out lumber.

REFERENCES.

INDIANAPOLIS, March 21, 1861.

This is to certify that we are now using Messrs. Redstone, Brother & Co.'s Cross-Cutting Saw Machine, and find that it will accomplish easily an equal amount of work with less than one-fifth of the power necessary to run a circular saw which would be large enough to do the same kind of work, and we take pleasure in recommending it to those who have use for the cross-cut saw, as a machine easily adapted to hand or other motive power, upon the farm or in the workshop.

OSGOOD, SMITH & CO.

BROOKFIELD, March 14, 1861.

Messrs. REDSTONE, BRO. & Co.:

We are well pleased with the operation of the Sawing Machine we got from you. It is certainly ahead of anything we have ever seen for cross-cutting timber. It cuts very rapid, and as true as a straight-edge, and with less power than any other machine that we have ever seen run that will do near the amount of work, and seems very durable.

MORGAN & MEANS.

The right to make all the above Machines belongs to REDSTONE, BRO. & Co., and they can only be had from their manufactory, opposite the Cincinnati Freight Depot, Indianapolis.

WALNUT ST. HOUSE,

Walnut Street, between Sixth and Seventh,

Cincinnati, Ohio.

Having completed our arrangements, and refurnished and put in complete order, the above-named House, it is our intention to offer to the

TRAVELING COMMUNITY

Superior inducements. The situation of the House is central, and in the immediate vicinity of the **Merchant's Exchange, Post Office,** and the business portion of the City.

This House is the best Ventilated in the City,

And we flatter ourselves that from our practical experience, we will have a decided advantage.

GLENNS' BLOCK,

INDIANAPOLIS, INDIANA.

(*See Engraving Opposite Page.*)

This new and elegant block, erected and owned by Wm. Glenn, H. Glenn, and R. P. Glenn, is situated on the south side of Washington, between Meridian and Pennsylvania streets, occupying the site of the old Browning Hotel, afterwards called the Wright House. It is three and a half stories high, being 68 feet front on Washington street, and extending back to Pearl street, containing three store rooms and eight offices; the side stores are 17½ feet wide and 132 feet deep. The center store, known as the NEW YORK STORE, is occupied by the proprietors of the block, W. & H. Glenn & Co., and 32½ feet in width by 132 feet in depth. This store is the mammoth dry goods establishment of the State. The offices are occupied by lawyers, doctors, architects, piano manufacturers, lightning rod manufacturers, a music teacher, Republican State Central Committee, intelligence office, and the Indiana American. One store, (that on the east, is occupied by Merrill & Co., dealers in law books, stationery, &c. The one on the west side is occupied as a store by Cady & Co. The appearance of this block is very attractive, chaste and elegant, without a fault and is an ornament to our main street. It was rebuilt at a cost to the Messrs. Glenn of forty-five thousand dollars.
